

June 23-25, 2023

Downtown Chicago on the campus of Northwestern Memorial Hospital

Course directors

lames P. Chandler, MD, and Robert C. Kern, MD

Bringing together skill sets from neurosurgery and otolaryngology, this comprehensive three-day course offers a unique opportunity to collaborate and learn complex surgical techniques from some of the top experts in the field of skull base pathologies, and to take advantage of the leading-edge technologies and cadaver dissection available in our lab.

The Skull Base Lab team instructs via didactic presentation, 3D and virtual reality (VR) anatomy demonstration, and guided cadaveric dissection. Participating surgeons get hands-on dissection experience using specimens to practice several complex approaches in both open and endoscopic cranial base surgery.

On completion of the course, participants will be able to:

Review the surgical approaches (open and endoscopic) for complex skull base pathologies.

Recognize the advantages of a team-based approach for managing pre-op, peri-op and post-op skull base pathologies.

Demonstrate proficiency in endoscopic instrument handling and standard open skull base approaches.

Course Details

Location and parking

Northwestern Simulation Laboratory

McGaw Pavilion 240 East Huron Street, Suite LC-0540 Chicago, Illinois 60611

Discounted day and overnight parking will be available at 222 East Huron Street.

Audience

This comprehensive three-day course is designed for both novice and experienced surgeons, residents and fellows in neurosurgery and otolaryngology.

Registration fees

•	Attending physician\$2,500
•	Trainee
•	Pair registration (neurosurgery and otolaryngology – head and neck surgery)\$3,500
•	Northwestern University Feinberg School
	of Medicine alumni

Breakfast, refreshments and lunch are provided. Space is limited.

Hotel accommodations

We have a limited number of rooms reserved for participants coming from out of town. Please call Laura Jaros at 312.926.3369 or email laura.jaros@nm.org for information.

Accreditation statement

The Northwestern University Feinberg School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit designation statement

The Northwestern University Feinberg School of Medicine designates this live activity for an estimated maximum of *21.75 AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Course Agenda

Friday, June 23

7:00 am	Breakfast and Registration
7:15 am	Welcome/Course Overview James P. Chandler, MD
7:30 am	3D Anatomy Michael Walsh, MD
8:00 am	Endoscopic Endonasal Sellar With Nasoseptal Flap Robert C. Kern, MD
8:30 am	LAB: Endoscopic Dissection
10:00 am	Endoscopic Anterior Cranial Base Resection: Suprasellar Approach David B. Conley, MD
10:30 am	LAB:Endoscopic Dissection
Noon	Lunch With Case Presentations
1:00 pm	3D Anatomy Michael Walsh, MD
1:00 pm 1:30 pm	•
	Michael Walsh, MD Endoscopic Endonasal Transpterygoid/ Transmaxillary Approach to the Middle Cranial Fossa Jean Anderson Eloy, MD, FACS, FARS,
1:30 pm	Michael Walsh, MD Endoscopic Endonasal Transpterygoid/ Transmaxillary Approach to the Middle Cranial Fossa Jean Anderson Eloy, MD, FACS, FARS, and Robert C. Kern, MD
1:30 pm 2:00 pm	Michael Walsh, MD Endoscopic Endonasal Transpterygoid/ Transmaxillary Approach to the Middle Cranial Fossa Jean Anderson Eloy, MD, FACS, FARS, and Robert C. Kern, MD LAB: Endoscopic Dissection Endoscopic Endonasal Transclival Approach
1:30 pm 2:00 pm 3:30 pm	Michael Walsh, MD Endoscopic Endonasal Transpterygoid/ Transmaxillary Approach to the Middle Cranial Fossa Jean Anderson Eloy, MD, FACS, FARS, and Robert C. Kern, MD LAB: Endoscopic Dissection Endoscopic Endonasal Transclival Approach Stephen T. Magill, MD, PhD

Saturday, June 24

7:00 am	Breakfast, 3D Device Set Up
7:30 am	3D Anatomy <i>Michael Walsh, MD</i>
8:00 am	Transcranial Suprasellar Approaches Osaama Khan, MD
8:30 am	LAB: Open Dissection
10:00 am	Lateral Subtemporal Approach to the Middle Cranial Fossa Alan G. Micco, MD, and Timothy R. Smith, MD, PhD
Noon	Lunch With Case Presentations
1:00 pm	3D Anatomy <i>Michael Walsh, MD, and David B. Conley, MD</i>
1:30 pm	Anterior Cranial Base Resection: Subfrontal Approach With Pericranial Flap James P. Chandler, MD
2:00 pm	LAB: Open Dissection
3:30 pm	Transpetrosal/Far Lateral Approach to the Clivus Omar Arnaout, MD
4:00 pm	LAB: Open Dissection
5:30 pm	Review and Adjournment

Sunday, June 25

8:00 am Breakfast

8:30 am	3D Anatomy Michael Walsh, MD
	Theriael Walsh, Tib
8:00 am	Complication Avoidance and Management <i>James P. Chandler, MD</i>
10:00 am	LAB: Open Dissection
Noon	Review and Adjournment
